SUMMARY

Active-duty US Air Force Cyber Defense Operations specialist (1D7X1Q, TS/SCI) securing mission-critical networks and services for combat and training operations. Strong software and data background (Python, Java, SQL, Linux, automation) and systems-thinking mindset, focused on building reliable systems under real-world constraints.

EXPERIENCE

United States Air Force | Cyber Defense Operations Specialist (1D7X1Q), ACC, Langley AFB, VA | 2023 - Present

- Coordinate enterprise cyber priorities and core service status across 32 sites, delivering 24/7 support for 5 NAFs and 26 Wings at 15 ACC bases; recognized with quarterly award and commanders coin.
- Resolved NORAD NIPR outage by coordinating 4 units to identify a failed \$700K relay circuit and implement an enterprise-wide fix, restoring missile sensor warnings for 29M sq mi of US & Canadian airspace.
- Designed and implemented a \$1.2M virtual enclave to segregate foreign networks at Mountain Home AFB, preserving CUI access without interrupting flight training for 187 coalition pilots.
- Configured switches and managed 50+ SIPR assets during RED FLAG 24-3, sustaining 2K members from 39 joint units in 8 classified areas and enabling 1.1K aircraft sorties.
- Led 11 Airmen to manage 18 AFCYBER tasking orders, strengthening 5 vulnerable sites and 30K assets and ensuring C4ISR capabilities for 1.3K units at 262 locations.

Selected Community & Leadership

- Led Booster Club concessions committee, dedicating 80+ hours to fund 3 morale events for 132 personnel.
- Volunteered at local food bank, packaging 11K lbs of food; supported AFCEA by escorting distinguished visitors on base.

TECHNICAL PROJECTS

Options & Market Data Analytics (Personal)

- Built Python tooling to screen equities and options using technical indicators (MACD, Supertrend, volatility, OI) and macro data; designed backtests to evaluate robustness and risk.

Minecraft Infrastructure & Scale (Personal)

- Deployed and administered Linux-based Minecraft servers on Docker and Oracle Cloud ARM, serving 29,323+ unique players and 600+ concurrent players; automated backups, monitoring, and performance tuning via scripts and plugins.

EDUCATION

- Western Governors University | B.S. Cybersecurity & Information Assurance (in progress)
- Northern Virginia Community College | Computer Science coursework (60+ credits completed)

CERTIFICATIONS & CLEARANCE

- TS/SCI Security Clearance
- CompTIA Security+

TECHNICAL SKILLS

Languages & Data: Python, Java, SQL, Bash. **Infrastructure & OS:** Linux, Docker, Git, networking fundamentals. **Security & Tools:** ACAS, Tanium, ServiceNow, Remedy, eMASS, vulnerability management, incident response. **Concepts:** Distributed systems basics, data pipelines, systems thinking under operational constraints.
